

## **Tractor & Implements Registrations**

The ROAD SAFETY (VEHICLES) REGULATIONS 2009 – Reg 48 & 49  
STATE:- You must have a front and rear number plate on a tractor.

We appreciate that the front grill area of a tractor is very difficult to comply with this regulation. So, Vic Rd's will allow a tractor owner to place the front number plate on the front facing surface of the tractor cab.

## **TOWED IMPLEMENTS.**

The regulations also state that:- any and all towed implements require a number plate to be affixed in a position that is clearly visible and readable.

## **THERE ARE NO EXEMPTIONS FOR AGRICULTURAL VEHICLES**

**THE REGULATIONS ALSO STATE THAT:- THE TOWED IMPLEMENT OR TRAILER MUST BE ROADWORTHY AND HAVE ALL LIGHTS AND BLINKERS AS PER THE TRAFFIC ACT.**
